This Peace March and its local support events are dedicated to Spiritually Uniting Humanity as One Nation Under Love, Our One Human Family, All Our Relations - Our Family of Life

Proposing this project to introduce the open source Rainbow Uprising Peace Pole at this year's July 1-7 rainbow gathering in New England and carrying it on a peace walk to Lafayette Park Peace Vigil to offer the peace pole ceremony for the White House lawn, leave it with the vigil until the president accepts, President Obama or the next one, in support of Proposition One for Global Nuclear Disarmament <http://prop1.org>

At this link... <http://global-emergency-alert-response.net/rainbowuprising.html> ... is the explanation of the message of the Rainbow Uprising Campaign, which was initiated in January 1990 in Santa Barbara California with a week of events including participation by Hopi interpreter Thomas Banyacya, Mohawk Chief Jake Swamp, Japanese and Tibetan Buddhist monks, free energy scientist Bruce DePalma, local Chumash and other community leaders including the president of the Santa Barbara chapter of the global Sathya Sai Baba spiritual service organization - <http://sathyasai.org>

At the following link you can see a 2 hour video edited from 20 hours of video of that week of events in January 1990, including the message of The Great Law of Peace and the Tree of Peace, and the official Hopi Prophecy message as of that time preparing to "open the door to the House of Mica", including actor Jon Voight's personal experiences discussion of that Hopi Prophecy and about his experience with the Six Nations and Chumash peoples and their spiritual teachings.

We will be adding a growing list of issues to be championed by the walk, including Presidential Clemency for Leonard Peltier, global health, environment, peace, and energy solutions, proposing implementation of the traditional Hopi interpreter Thomas Banyacya's vision of a Spiritual Peoples United Nations, *One United Nation for The Great Earth Peace.*
